The screenshot shows the Azure DevOps web interface in a browser. The address bar displays the URL: `dev.azure.com/raahulrajagopalan/Azure/_build?definitionId=21`. The left sidebar contains navigation links: Azure, Overview, Boards, Repos, Pipelines (selected), Pipelines, Environments, Releases, Library, Task groups, and Project settings. The main content area is titled "Azure-CI" and has tabs for "Runs", "Branches", and "Analytics". The "Runs" tab is active, showing a table of pipeline runs. The table has columns for "Description" and "Stages". A single run is listed with a green checkmark in the "Description" column, indicating success. The description text is "#22 • pipe" followed by "Manually triggered for master" and a commit hash "2828e999". The "Stages" column shows a green checkmark. On the right side of the table, it says "3m ago" and "31s". Above the table, there are buttons for "Edit" and "Run pipeline".
